Executive Summary

1 | Executive Summary

Salient fact and assumptions and IVS 2022 and regulatory compliance

Identity of the client	Addressee (to whom the report is addressed)	SNB Capital Company (Al-Ahli REIT Fund 1)	Other users	Unitholders of Al-Ahli REIT Fund 1
	Contact person	-	Contact information	info@alahlicapital.com
Assets being valued	Assets name	Qbic Plaza	Interest to be valued	freehold interest
	Location	https://goo.gl/maps/dSHWG3NnPnd6wPdY9		
Valuation standards	International Valuation Standards 2022	Unless otherwise noted, the Valuation assignment is undertaken in accordance with the TAQEEM Regulations (Saudi Authority for Accredited Valuers) and in conformity with the International Valuation Standards (2022 Edition).		
Valuation	Purpose of valuation	Periodic valuation of publicly-listed real estate investment traded fund	valuation date	21/12/2023
	Inspection date	03/12/2023	Approved valuation approach and method	Income Approach - Cashflow method
	Basis of value	Market Value	Market value : a Standard of Value considered to represent the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction ,after proper marketing , and where the parties had each acted knowledgeably , prudently , and without compulsion	Premise of value
		International Valuation Standards 2022 defines Current Use/Existing Use premise of value as "Current use/existing use is the current way an asset, liability, or group of assets and/or liabilities is used. The current use may be, but is not necessarily, also the highest and best use."		

1 | Executive Summary

Salient fact and assumptions and IVS 2022 and regulatory compliance

Report	Reference Number	231160916	Report type	Detailed report
	Report date	05/02/2024	Report version	Final
	Use, publication and distribution restrictions	The valuations and reports are confidential to the intended entity and to those referred to it for a specific purpose, without any liability of any kind to any third party. This report may not be published in whole or in part in any document, statement, periodical publication or any means of communication with any third party without prior written consent in the form and context in which it appears, with the exception of in accordance with the purpose of the valuation, this report is allowed to be traded on the CMA (Tadawul) website and the fund manager's website or in such ways as the fund manager deems appropriate.		
	Status of Valuers	We shall be acting with "Subjectivity" as an External Valuer for the purposes of this instruction. "Subjectivity" is defined in the International Valuation Standards (IVS) as: "The process of valuation requires the valuer to make impartial judgements as to the reliability of inputs and assumptions. For a valuation to be credible, it is important that those judgements are made in a way that promotes transparency and minimizes the influence of any subjective factors on the process. Judgement used in a valuation must be applied objectively to avoid biased analyses, opinions and conclusions".		

1 | Executive Summary

Salient fact and assumptions and IVS 2022 and regulatory compliance

Investigations and Compliance	Limits on investigations	-	
	Limits on analysis	-	
	Limits on inspection	-	
Nature and sources of information upon which the valuer relies	<ul style="list-style-type: none"> We have accepted the following documents to be used as input in our valuation assuming they are correct and up to date: These documents -may be referred to in the appendices- are: <ul style="list-style-type: none"> <u>The title deed</u> <u>Lease contract</u> <u>Statement of BUA and NLA</u> Market research and analysis have been undertaken by the valuer. 		
Assumptions and special assumptions	Assumptions	IVS's instructions	<ul style="list-style-type: none"> International Valuation Standards define it as "the presumed facts that are consistent with, or could be consistent with, those at the valuation date." Assumptions related to facts that are consistent with, or could be consistent with, those existing at the date of valuation may be the result of a limitation on the extent of the investigations or enquiries undertaken by the valuer. All assumptions and special assumptions must be reasonable under the circumstances, be supported by evidence, and be relevant having regard to the purpose for which the valuation is required.
		Applications in this report	<ul style="list-style-type: none"> None (except as indicated in the terms and conditions)
Assumptions and special assumptions	Special assumptions	IVS's instructions	<ul style="list-style-type: none"> International Valuation Standards define it as "assumed facts that differ from those existing at the date of valuation." Where assumed facts differ from those existing at the date of valuation, it is referred to as a "special assumption". Special assumptions are often used to illustrate the effect of possible changes on the value of an asset. They are designated as "special" so as to highlight to a valuation user that the valuation conclusion is contingent upon a change in the current circumstances or that it reflects a view that would not be taken by participants generally on the valuation date All assumptions and special assumptions must be reasonable under the circumstances, be supported by evidence, and be relevant having regard to the purpose for which the valuation is required.
		Applications in this report	<ul style="list-style-type: none"> None (except as indicated in the terms and conditions)

Property Risks	<ul style="list-style-type: none"> The availability of multiple alternatives in the market, which affects supply and demand .

Part 4

Valuation

- 4.1 Valuation Approaches
- 4.2 Valuation Analysis
- 4.3 Opinion of Value
- 4.4 Validity of review and clarification

4.1 | Valuation Approaches

Principal valuation approaches and Residual Method	
Market Approach	<p><i>"The market approach provides an indication of value by comparing the asset with identical or comparable (that is similar) assets for which price information is available.</i></p> <p><i>The market approach should be applied and afforded significant weight under the following circumstances:</i></p> <p><i>(a) the subject asset has recently been sold in a transaction appropriate for consideration under the basis of value,</i></p> <p><i>(b) the subject asset or substantially similar assets are actively publicly traded, and/or</i></p> <p><i>(c) there are frequent and/or recent observable transactions in substantially similar assets."</i></p>
Income Approach	<p><i>"The income approach provides an indication of value by converting future cash flow to a single current value. Under the income approach, the value of an asset is determined by reference to the value of income, cash flow or cost savings generated by the asset.</i></p> <p><i>The income approach should be applied and afforded significant weight under the following circumstances:</i></p> <p><i>(a) the income-producing ability of the asset is the critical element affecting value from a participant perspective, and/or</i></p> <p><i>(b) reasonable projections of the amount and timing of future income are available for the subject asset, but there are few, if any, relevant market comparables."</i></p>
Cost Approach	<p>Replacement Cost Method is categorized under Cost Approach in the International Valuation Standards 2022 and is defined as <i>"replacement cost is the cost that is relevant to determining the price that a participant would pay as it is based on replicating the utility of the asset, not the exact physical properties of the asset"</i>.</p>
Residual Method	<p><i>"The residual method is so called because it indicates the residual amount</i></p> <p><i>after deducting all known or anticipated costs required to complete the</i></p> <p><i>development from the anticipated value of the project when completed after</i></p> <p><i>consideration of the risks associated with completion of the project.</i></p> <p><i>This is known as the residual value."</i></p>

4.1 | Valuation Approaches

The main factors that determining the best approach for valuation	
Factors	<ul style="list-style-type: none"> • The purpose of the valuation • Property type • Basis of value • Source of information
Approaches and methods used in the report	
Market Approach	<input type="checkbox"/> Comparison Method
Income Approach	<input type="checkbox"/> Direct Capitalization method <input checked="" type="checkbox"/> Cashflow method <input type="checkbox"/> Profits method
Cost Approach	<input type="checkbox"/> Depreciated Replacement Cost (DRC)
Residual Method	<input type="checkbox"/> Residual Method

4.2 Valuation Analysis

4.2.1 Income Approach Approach- Discounted Cash Flow Method

Discounted Cash Flow Method is categorized under Income Approach in the International Valuation Standards 2022 and is defined as “Under the DCF method the forecasted cash flow is discounted back to the valuation date, resulting in a present value of the asset”.

4.2.1.1 Contractual lease data

Adjusted Value / m ²	-	SAR/m ² 1,107		SAR/m ² 1,023		SAR/m ² 1,088	
Weighting	-	40%		35%		25%	
Subject Property Adjusted Value (SAR/m ²)	-	SAR 1,070					

Weighted average of the three comparables is calculated to arrive at average value per meter. Largest weight is awarded to comparable (1) as it carry more similarities to the subject property.

Total income for Second Floor Offices by market	
Net leasable area(m2)	2,457.00
Rental value per square meter (SAR / m2)	1,070.00
Actual Gross Income	2,628,990.00

Notes:

- We estimated the price per meter for Second Floor Offices at 1,070 SAR.
- We estimated the price per meter for First Floor Offices at 963 SAR (10% discount compared to Second Floor Offices).

4.2 | Valuation Analysis

4.2.1 Income Approach Approach- Discounted Cash Flow Method

4.2.1.2 Property Income- (Assumed Market Income)

Property income	Area	Value	
Ground Floor Showrooms	9,029.00 m ²	1,850.00 SAR	16,703,650.00 SAR
First Floor Showrooms	4,604.00 m ²	1,665.00 SAR	7,665,660.00 SAR
Second Floor Showrooms	2,629.00 m ²	1,480.00 SAR	3,890,920.00 SAR
First Floor Offices	2,534.00 m ²	963.00 SAR	2,440,242.00 SAR
Second Floor Offices	2,457.00 m ²	1,070.00 SAR	2,628,990.00 SAR
Total gross income			33,329,462.00 SAR
Vacancies	15.00%		-4,999,419.30 SAR
Net gross income after deduction of vacancies			28,330,042.70 SAR
Operating & Maintenance	15.00%		-4,249,506.41 SAR
Net operating income (NOI)			24,080,536.30 SAR

4.2.1.3 Income data approved in the valuation

The actual income data of the subject property was compared with the market Income and the following was found:

Element	Actual income data	Market data	The difference	
			SAR	%
Rental value of the property (SAR)	21,613,000.00	24,080,536.30	2,467,536.30	11.42 %
vacancy	0	15 %	-	-
Operation and maintenance expenses	0	15 %	-	-
Result	Market research reveals that the subject property generates income at market rate with no significant variance. Comparables' income included in the previous research is similar to the subject property in term of its exclusiveness of all OpEx and vacancy costs. Therefore, we have used contractual income as input in our valuation.			

4.2.1.4 Assumptions

- The valuation was based on the contract income for the three years using cash flows, and for the second seven years we expected an increase of 5% .

4.2 Valuation Analysis

4.2.1 Income Approach Approach- Discounted Cash Flow Method

4.2.1.4 Assumptions

Project Assumptions	
Project period	10 years

- Annex 1 :details the cash flows of the subject property, where a 10.50% discount rate has been approved to calculate the value of the property, accordingly the value of the property is estimated in the manner of cash flows by:

Discount rate by observed or inferred rates/yields		
Rates	Value	Source
Risk-free rate	3.32%	Saudi Exchange
Inflation rate	2.59%	General Authority for Statistics
Market Risk	1.22%	knoema Patform Data
Property Risk	2.87%	Valuer's estimate of the market
Discount rate	10.00%	

4.2.1.5 Valuation Result

Income Approach Valuation Result	
Cap rate	8.00%
Discount rate	10.00%
Income approach value (SAR)	270,734,799.03

4.3 | Opinion of Value

Opinion of value	
Value	270,735,000
Written	Only two hundred and seventy million seven hundred and thirty-five thousand SAR
Currency	Saudi Riyal

4.4 | Validity of review and clarification

- Review is valid (30 days) from the date the first draft was issued.
- The estimated value of the property was reached through the following international methodologies and methods adopted by Saudi Authority for Accredited Valuers.

Part 5

Appendices

- 5.1 Documents
- 5.2 Cash flow analysis

5.3 | Assumptions and Limiting Conditions

This appraisal is subject to the following assumptions and limiting conditions :

This appraisal is to be used only for the purpose stated herein. While distribution of this appraisal in its entirety is at the discretion of the addressee, individual sections shall not be distributed; this report is intended to be used in whole and not in part.

No part of this appraisal, its value estimates, or the identity of the firm or the appraiser may be communicated to the public through advertising, public relations, media sales, or other media.

All files, work papers and documents developed in connection with this assignment are the property of the appraiser, ESNAD. Information, estimates and opinions are verified where possible, but cannot be guaranteed. Plans and sketches provided are intended to assist the addressee in visualizing the property; no other use of these plans is intended. The work file prepared is an electronic work file and incorporates by reference all pertinent electronic data and analysis files retained by the appraiser.

No hidden or unapparent conditions of the property, subsoil or structure, which would make the property more or less valuable, were discovered by the appraiser or made known to the appraiser. No responsibility is assumed for such conditions or engineering necessary to discover them. Unless otherwise stated, this appraisal assumes there is no existence of hazardous materials or conditions, in any form, on or near the subject property. The appraiser is not qualified to detect hazardous or toxic materials. Such determination would require investigation by a qualified environmental engineer or other expert, and is beyond the scope of this assignment.

The value estimate presented is based upon the assumption that the subject is free and clear of contamination or toxic materials of any kind either upon, or impacting, the subject property. No responsibility is assumed for any environmental conditions, or for any expertise or engineering knowledge required to discover such conditions.

Good title, free of liens, encumbrances and special assessments is assumed. No responsibility is assumed for matters of a legal nature. The subject is assumed to be following all zoning and legal encumbrances.

The valuation report is based on the data available at the time the assignment is completed. Reasonable amendments or modifications to the valuation based on new information made available after the review was completed will be made, as soon as reasonably possible, for an additional fee.

All maps, plans, property specifications and data relied upon by the appraiser and presented herein are assumed to be correct. No survey of the subject properties was made by this appraiser. Inspection of visual components of the subject was made, which should not be utilized as, or in lieu of, an engineering inspection, or an environmental inspection. The valuation report assignment was not based on a requested minimum valuation, a specific review, or the approval of a loan.

Any compensation is not contingent upon any action resulting from the analysis, opinions, or conclusions presented, or the use of the valuation report.

To the best of our knowledge and belief, the statements of fact contained in this appraiser report are true and correct. Furthermore, no known important or materially relevant facts have been withheld.

The valuation report analysis, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are Esnad's unbiased professional analysis, opinions, and conclusions.

The valuation report is predicated on the extraordinary assumption that the subject can be exposed for sale commensurate with the definition of market value contained herein. If found to be false, the opined value may or may not be impacted.

For the purpose of this valuation, ownership is assumed freehold. We were not provided with municipality constriction permit due to unavailability of the documents with the client the time the valuation is conducted. Should any document be found contrary to this assumption, opinion of value is impacted accordingly, and will require further analysis.

5.4 | Valuation Standards

5.4.1 Valuation Standards

- All work is carried out in accordance with the Saudi Authority for Accredited Valuers (Taqeem) and the International Valuation Standards ("IVS") published by the International Valuation Standards Council ("IVSC"), by valuers who conform to the requirements thereof. Our valuations may be subject to monitoring by these entities. The valuations are undertaken by appropriately qualified Taqeem valuers.

5.4.2 Valuation Basis

- Our reports state the basis of the valuation and, unless otherwise noted, the basis of valuation is as defined in the "the Red Book". The full definition of the basis, which we have adopted, is either set out in our report or appended to these General Principles.

5.4.3 Assumptions and Special Assumptions

- Where we make an 'assumption' or 'special assumption' in arriving at our valuations, we define these terms in accordance with the "IVS" as follows:
- These types of assumptions generally fall into one of two categories:
- (a) assumed facts that are consistent with, or could be consistent with, those existing at the date of valuation ("Assumption"), and
- (b) assumed facts that differ from those existing at the date of valuation ("Special Assumption").
- All assumptions and special assumptions must be reasonable under the circumstances, be supported by evidence, and be relevant having regard to the purpose for which the valuation is required.
- We will not take steps to verify any assumptions.

5.4.4 Disposal Costs Taxation and Other Liabilities

- No allowances are made for any expenses of realization, or for taxation, which might arise in the event of a disposal. All property is considered as if free and clear of all mortgages or other charges, which may be secured thereon. However, we consider purchaser's costs in investment valuations in accordance with market conventions.
- No allowance is made for the possible impact of potential legislation which is under consideration. Valuations are prepared and expressed exclusive of VAT payments, unless otherwise stated.

5.4.5 Sources of Information

- Where we have been provided with information by the addressee, or its agents, we assume that it is correct and complete and is up to date and can be relied upon. We assume that no information that has a material effect on our valuations has been withheld.

5.4.6 Title and Tenancy Information

- We assume, unless informed to the contrary, that each property has a good and marketable title, that all documentation is satisfactorily drawn and that there are no encumbrances, restrictions, easements or other outgoings of an onerous nature, which would have a material effect on the value of the interest under consideration, nor material litigation pending. Where we have been provided with documentation, we recommend that reliance should not be placed on our interpretation without verification by your lawyers.
- We have assumed that all information provided by the addressee, or its agents, is correct, up to date and can be relied upon.

5.4 | Valuation Standards

5.4.7 City Planning, Zoning and Regulations

Information on city planning is, wherever possible, obtained either verbally from local planning authority officers or publicly available in electronic or other sources. It is obtained purely to assist us in forming an opinion of market and should not be relied upon for other purposes. If reliance is required, we recommend that verification be obtained from lawyers that:

- I. the position is correctly stated in our report;
- II. the property is not adversely affected by any other decisions made, or conditions prescribed, by public authorities;
- III. that there are no outstanding statutory notices.

Our valuations are prepared on the basis that the premises (and any works thereto) comply with all relevant statutory regulations, including fire regulations, access and use by disabled persons, control and remedial measures for asbestos in the workplace and any applicable by-laws.

5.4.8 Surveys

Our reports state the basis of the Unless expressly instructed, we do not carry out any survey, nor do we test the services and we, therefore, do not give any assurance that any property is free from defect. Unless stated otherwise in our reports.

5.4.9 Site Conditions

We do not normally carry out or commission investigations on site in order to determine the suitability of ground conditions and services for the purposes for which they are, or are intended to be, put; nor do we undertake archaeological, ecological or environmental surveys. Unless we are otherwise informed, our valuations are on the basis that these aspects are satisfactory and that, where development is contemplated, no extraordinary expenses, delays or restrictions will be incurred during the construction period due to these matters.

5.4.10 Environmental Contamination

Unless expressly instructed, we do not carry out or commission site surveys or environmental assessments, or investigate historical records, to establish whether any land or premises are, or have been, contaminated. Therefore, unless advised to the contrary, our valuations are carried out on the basis that properties are not affected by environmental contamination. However, should our site inspection and further reasonable enquiries during the preparation of the valuation lead us to believe that the land is likely to be contaminated we will discuss our concerns with the client.

5.4.11 Insurance

Unless expressly advised to the contrary we assume that appropriate cover is and will continue to be available on commercially acceptable terms. In particular, we will have regard to the following:

Composite Panels. Insurance cover, for buildings incorporating certain types of composite panel may only be available subject to limitation, for additional premium, or unavailable. Information as to the type of panel used is not normally available. Accordingly, our opinions of value make no allowance for the risk that insurance cover for any property may not be available or may only be available on onerous terms.

Terrorism. Our valuations have been made on the basis that the properties are insured against risks of loss or damage.

Flood and Rising Water Table. Our valuations have been made on the assumption that the properties are insured against damage by flood and rising water table. Unless stated to the contrary our opinions of value make no allowance for the risk that insurance cover for any property may not be available or may only be available on onerous terms.

5.4.12 Outstanding Debts

In the case of property where construction works are in hand, or have recently been completed, we do not normally make allowance for any liability already incurred, but not yet discharged, in respect of completed works, or obligations in favor of contractors, subcontractors or any members of the professional or design team.

5.4.13 Confidentiality and Third-Party Liability

Our Valuations and Reports are confidential to the party to whom they are addressed and for the specific purpose to which they refer, and no responsibility whatsoever is accepted to any third parties. Neither the whole, nor any part, nor reference thereto, may be published in any document, statement or circular, or in any communication with third parties, without our prior written approval of the form and context in which it will appear.

5.4.14 Plans and Maps

All plans and maps included in our report are strictly for identification purposes only, and, whilst believed to be correct, are not guaranteed and must not form part of any contract. All are published under license. All rights are reserved
